PROJECTS

WonFoods - Responsive Food Ordering Website
- https://wonfood.netlify.app/
- **Responsive Food Ordering Website** A modern and fully responsive food ordering website built using **HTML, CSS, Bootstrap, JavaScript, jQuery, and Swiper.js** . The design showcases categories like drinks and fast food with smooth sliders and interactive UI. Optimized for **all screen sizes** , ensuring a seamless experience on desktop and mobile devices.

Daloun – Customized Rugs Shopify Store
- An elegant Shopify-based eCommerce website for premium rugs. I worked on **custom theme customization**, enhanced UI/UX, and integrated **Customily** to allow users to create and preview their personalized rug orders. The website provides a **smooth shopping experience** and supports **advanced product personalization**.

Portfolio
- https://builtbysubhan.netlify.app/
- React + Tailwind portfolio with a modular UI using **MUI** and **react-icons**. Fully responsive, accessible, and connected to **EmailJS** for in-app email.

E-Commerce Landing Page
- https://subhan-ecommerce-landing.netlify.app/
- A responsive freelance sample built with **HTML, CSS, and JavaScript** , focusing on **product display** and **clean layout** for all screen sizes.
